

The Federal Communications Commission

Dear The Federal Communications Commission,

TAX TAX TAX Is that all you do when the lobbies take you out for drinks. TAX.

I have an idea, lets tax the lobbies and those who accept gifts from them at triple the rate of the rest of the population.

How about a tax on the amount a person/company uses, versus a flat rate.

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

don rush
